

Attachment "D"

(Also see Attachments C1 through C5)

Demolition & removal

Between first and second floors:

- # opening for construction of stairs in area of original stairway;
 - # emergency egress stairway between second floor kitchens
 - # opening for elevator shaft at "A" or "B" as shown on Attachment C5 [*]
- 15,000**

Second floor:

- # interior walls, including closets, cupboards, etc.
 - # plumbing, heating and electrical fixtures
 - # electrical wiring and plumbing connections
 - # stair to attic
 - # floor above original flooring [this allows for A.C. ducts for first floor]
 - # A.C. equipment and ducts
- 22,000**

[Possible additional second floor items]

- # existing ceilings
 - # finishes on remaining walls
 - # wood frame construction between original building and Great Room might require additional demolition to restore structural integrity, e.g., floor in north kitchen without a second floor above it slants severely[**]
- 4,500**

First floor:

- [# in addition to items included in first cost assessment]
 - # opening in exterior masonry rear wall of original building for central corridor
 - # wall between Home Assistance Program office and computer stations area
 - # kitchen closet
- 5,000**

Sub Total, Demolition & Removals

46,500

Construction, etc.

Between first and second floors:

- # stairs in area of original stairway
- # elevator shaft, cab, machinery, etc., at either "A" or "B" [*]

87,500
